Task Three:

User story for Youtube:

As a youtube user/channel owner I want to be able to upload, edit and delete the videos that I create, on the platform, so that I can share and divulge my knowledge and/or views on a specific subject, influence other people and make an income. I also want to be able to manage things like the commentaries section, so that I can prevent other users from making any kind of detrimental comments.

Task Four:

Facebook: Sharing your social life, interacting with friends and community, promoting a business or selling and purchasing a variety of items.

Twitter: Expressing your thoughts, feelings, opinions about a number of subjects, and interacting with other users by answering to or sharing their posts.

Google: Searching the web to obtain information about a specific subject, person, etc., and researching any topic.

Youtube: Sharing videos containing a variety of subjects, where channels owners can teach, divulge, etc. and users can watch, like, share, subscribe or comment on videos.
